a. Figures in this table represent taxable distributions compiled from monthly tax returns. Because the tax liability attaches at the time alcoholic beverages are sold by manufacturers, importers, or wholesalers, rather than at the time a retail sale is made or when the consumption occurs, they are referred to as "apparent" consumption figures rather than as "actual" consumption figures.

b. Includes a relatively small amount of tax-exempt beer distributed to the armed forces subsequent to June 30, 1951. Prior to July 1951, such distributions were taxable. Effective January 1, 1980, distributions of beer for the armed forces became subject to the state's excise tax when purchased from California suppliers.

c. Includes a relatively small amount for sparkling hard cider starting January 1995.

NOTE: Detail may not compute to total due to rounding.
